PhD Candidate in Economics

ESSEC · THEMA

Paris, France / ke.shi@essec.edu / kshi-econ.github.io

Profile

I am a PhD candidate in economics at ESSEC and a member of THEMA, a research center jointly affiliated with CY Cergy Paris Université, ESSEC, and CNRS. I work in applied microeconomics at the intersection of migration, education, identity, and family. My research studies how legal status, historical institutions, and hostile social environments shape belonging, discrimination, and human capital formation.

Research Fields

Migration economics; economics of education; identity, discrimination, and social stratification; gender and family economics.
